

Coach M's Bxh7+ Collection of Successes, Half-Successes, and Failures!

Coach M's Tip: If a puzzle position is proving too difficult, then set this position up on a physical chess board. After you've formulated your solutions for each position, you can check your work by setting up the game position in an analysis board in chess.com and then switching on the chess engine.

For each puzzle, determine whether the "Greek Gift" Bxh7+ works or not?! When it works, the winning follow-ups will vary from game to game but beware that in several of these positions, Bxh7+ is just a lemon! Along with the forcing wins, can you also spot the Bxh7+ FAILS among these positions?
